

FC-OV-01-D250 Overpressure Valve

VER 2025A

**[Product Introduction]**

FC-OV-D250 Overpressure valve is used as air outlet inside blast shelters. The valve regulates the over-pressure in different areas.

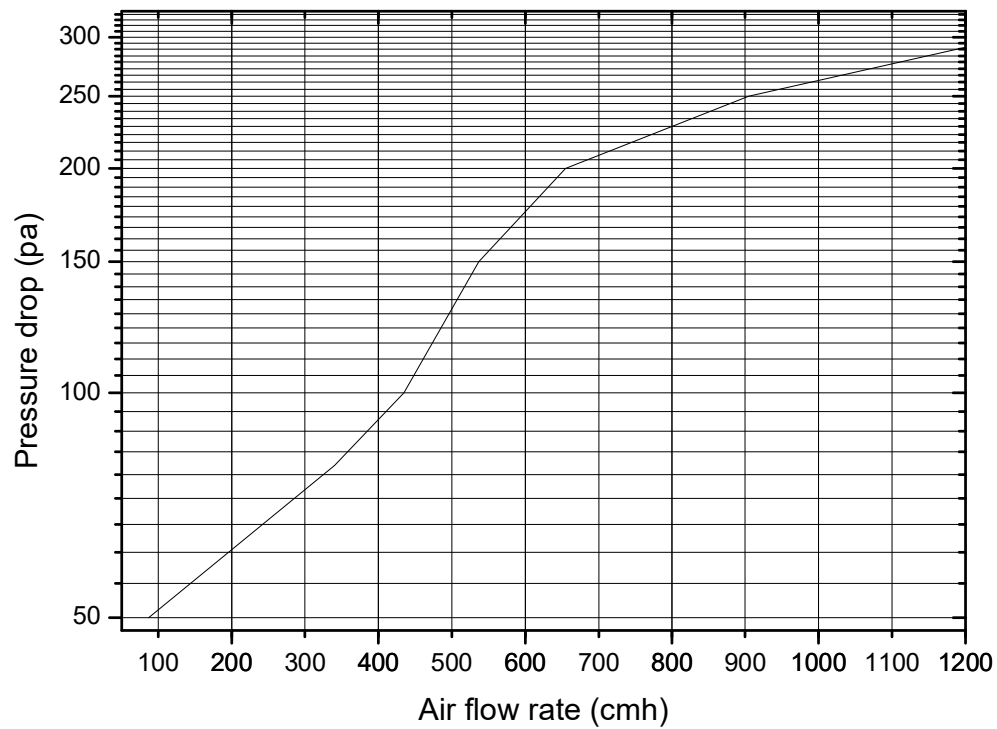

[Product Features]

- ✓ Easy installation to wall surface by bolts.
- ✓ Releasing overpressure at the preset value of 50 Pa.
- ✓ The relief pressure could be adjusted.

[Specifications]

Material	Optional materials include powder coated steel, HGS, SS304 and SS316.
Aerodynamic performance	Refers to Pressure Drop – Air Flow Rate curve. Tested by EN1751-1999.
Shock resistance	20 g

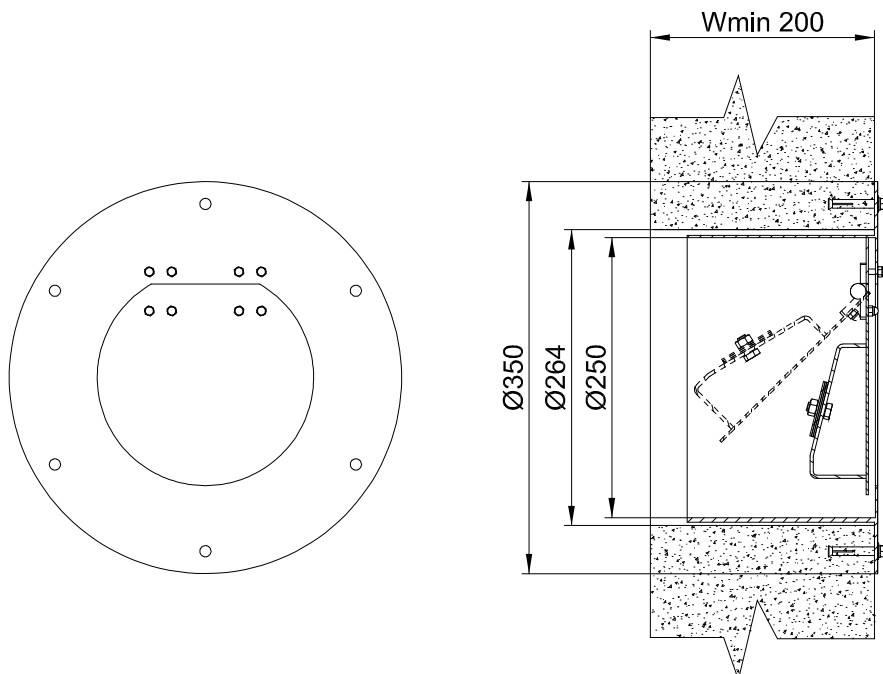

[Pressure Drop vs Air Flow Rate]

Product is tested by EN1751-1999.

[Mounting]

i. Wall surface mounting - Inside building
